

ORKHAN ASLANOV

FRONTEND DEVELOPER

I am a frontend developer focused on building web applications. I create responsive and modern interfaces using HTML, CSS, SCSS, and Tailwind CSS. With JavaScript and TypeScript, I develop functional and user-friendly experiences. I build component-based applications using React.js and Next.js. I also work with Node.js and Express.js for backend integration. I have experience with both MongoDB and MySQL databases. I use Git for version control and work well in team environments. I am eager to learn new technologies and constantly improve my skills.
